

The Expositors Bible: The Books of Chronicles (Annotated Brief History of Bible)

The Expositors Bible: The Books of Chronicles By William Henry Bennett Professor of Old Testament Languages and Literature, Mackney and New Colleges; Sometime Fellow of St. Johns College, Cambridge. Chronicles is a curious literary torso. A comparison with Ezra and Nehemiah shows that the three originally formed a single whole. They are written in the same peculiar late Hebrew style; they use their sources in the same mechanical way; they are all saturated with the ecclesiastical spirit; and their Church order and doctrine rest upon the complete Pentateuch, and especially upon the Priestly Code. They take the same keen interest in genealogies, statistics, building operations, Temple ritual, priests and Levites, and most of all in the Levitical doorkeepers and singers. Ezra and Nehemiah form an obvious continuation of Chronicles; the latter work breaks off in the middle of a paragraph intended to introduce the account of the return from the Captivity; Ezra repeats the beginning of the paragraph and gives its conclusion. Similarly the register of the high-priests is begun in 1 Chron. vi. 4-15 and completed in Neh. xii. 10, 11.**This eBook has all graphics of a high quality and eligible as good format.**All Texts are completely digitally edited and properly formatted for easy reading.**Interactive of Table Content linkage for easy navigation.
