

## Empowered Boomers

You've heard of the Venus-Mars differences, but how does that impact Boomers when they sit down with a CERTIFIED FINANCIAL PLANNER (TM) to talk about money? Debra L. Morrison, CFP (TM) brings over 33+ years of experience of wealth management to this topic. Over the years, she has noticed that women are simply hardwired differently from men. It is only natural that women will come at a subject (particularly something as heavily laden with emotion as money) from another angle. There is no right approach to building wealth; in fact, the combined thinking within a couple is what sets them up to succeed. This lively report will demonstrate not only the ideological and specific brain differences between the sexes, but also offer solutions of how to talk to one another and how to plan a financial future accordingly.
