

The Lady from Spain

Trapped in Spain during Napoleons war, Falcarrah Colburne finally returns to England posing as a Spanish widow for safety's sake, set on a personal mission of vengeance. She's seeking help from only one person, and it is not Jeremy Hazelton, Lord Danebridge, the handsome lord she meets soon after her arrival. Danebridge contrives to make certain that she'll need his help, for the government has assigned him one final mission-- to learn if the lady is a spy. Falling in love is not part of his plan. Who is the mysterious lady from Spain? After he has lied to, stolen from, and spied upon her, can he hope to win her trust or divert her from her dangerous path? Can she surrender the past to choose the risky road of love?
