

The Legacy of Rome (Classic Reprint)

This book is an endeavour to trace in many fields the extent of the inheritance which the modern world owes to Ancient Rome. The chapters have been written independently, and it will be seen that they are not all on the same plan. Some writers have described the contribution of Rome to civilization, and have left it to the reader to infer the extent of the legacy :others have traced the steps by which the legacy has come to us, and to this subject Professor Foligno has devoted a valuable chapter. The editors thanks are due to all the contributors, especially to M r. A squith, who found time to write an Introduction to the volume. Also to M r. Angus Davidson for his assistance in translating Professor Giovannoni schapter, and to lessor R. S. Conway for the two photographs otrating the probable site of Virgil sfarm. C. B.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
