

Lessons In Loving

Lessons in Loving offers a much-needed education in healthy, positive relationship skills. Author Philip St. Romain identifies and helps you master the skills necessary for growth in self-love and love of others -- including love of God. The book is written in two parts: intrapersonal skills (relating with self) and interpersonal skills (relating with others). The first helps you understand the relationship between your behavior, perception, beliefs, feelings, and decisions so you can come to self-knowledge and eventually to responsible change. In the second part, you will discover how to develop the ability to read the feelings, intentions and desires of others -- even when hidden -- and to act lovingly upon that knowledge.
