

## Yoga : The Alpha and Omega : Vol. 4

Osho dissects the cause of misery -- our clinging to life and fear of death, egoism, attraction and repulsion...our lack of awareness. At the outset he puts the situation straight, that the austerity Patanjali is talking about has nothing to do with torturing the body: Life is more if you are sensitive; life is less if you are less sensitive. Osho as always has the vision and understanding to bring everything, even the seemingly most complex to its simplest: To me life in its totality is good. And when you understand life in its totality, only then can you celebrate... Celebration is my attitude, unconditional to what life brings.
